

Vermont Topographic Maps CD Set Index Map

Each tile corresponds to one 7.5-minute USGS quadrangle (1:24000 or 1:25000 scale). Tiles are numbered as XXYY, with XX shown above the map and YY shown to the left (see tile 1213 above). The Vermont Topographic Image files have the following naming convention:

TOPO<XXYY>.TIF

* The small number at the bottom of each QUAD is the USGS Index number used by the State of Vermont when referencing QUAD map sheets.
